

**Lyo-Ready Non-Bac  
DNA qPCR Mix, 4x**

Cat No.:	MDX362
Storage Conditions:	-20 °C
Lot number:	RD126C

**Test Parameters**

Analysis	Specification	Result
Functionality	Quantitative PCR analysis amplifying a multiplex reaction of 3 genes from DNA under standard conditions. Ct must be consistent for the test and reference sample.	Passed
Absence of DNA contamination	Quantitative PCR analysis targeting pan-bacterial sequences. The positive controls must fall within the expected Ct range. The average of the no template control (NTC) replicates must be Ct ≥ 40.	Passed
